 - Designed a clean and intuitive UI for effortless user navigation.
 - Enhanced SEO optimization with structured metadata and schema markup.
 - Implemented smooth page transitions and animations for a polished experience.
 - Flowrise:** A cutting-edge fitness platform providing personalized workout plans, progress tracking, and fitness-related content.
 - Built a dynamic and modular UI with reusable components for scalability.
 - Integrated Prismic CMS for seamless content updates without code changes.
 - Implemented interactive animations for a smooth user experience.
-

Experience

Web Developer Intern

Agtarise · Lagos, LA

09/2024 - 11/2024

Web Development & Design:

- Developed and maintained responsive web applications using HTML, CSS, and JavaScript.
- Built dynamic user interfaces with React/Next.js.
- Created reusable UI components to improve code efficiency and maintainability.

Performance Optimization:

- Optimized website speed and performance through lazy loading, code splitting, and caching.

- Implemented SEO best practices to improve search engine ranking

Debugging & Testing:

- Identified and fixed bugs, UI inconsistencies, and performance bottlenecks
 - Conducted unit and integration testing using Jest and Cypress
