- Git
- GraphQL
- GSAP
- HTML
- JavaScript
- MongoDB
- NextJS
- Node.js
- React
- Redux
- SQL
- Styled Components
- Tailwind CSS
- Typescript

PROJECTS

DenimDreams

E-commerce platform for denim fashion built with **React** and **TypeScript**

- Integrated **Firebase** for user authentication
- Utilized **Redux** for state management across the application
- Configured **Stripe API** for secure payment processing
- Built **REST APIs** with Express.js to handle backend operations.

Rock Paper Scissors Spock Lizard

Interactive game based on the classic rock-paper-scissors concept, enhanced with **React** and **TypeScript**.

- Developed a visually engaging UI with animations
- Employed **Redux** for seamless state management.

Flowrise

Fitness platform to promote health and wellness, developed using **NextJS**.

- Implemented **Prismic** as a headless CMS for streamlined content management
- Leveraged **GSAP** for dynamic animations and engaging transitions
- Styled using **Tailwind CSS** for a responsive and visually cohesive design

Positivus

- Website for a digital marketing agency focusing on data-driven solutions built with **Astro, React and TypeScript**.
- Employed **Static Site Generation (SSG)** and **Server-Side Rendering (SSR)** for optimized performance
- Added animations with **Framer Motion** for enhanced user engagement
- Styled with **Tailwind CSS** for a clean and modern look
